CULLIGAN

MILANO SWAN 3-IN-1 BOILING WATER TAP

Culligan®

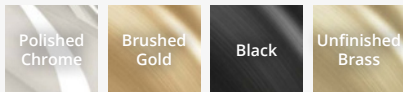

The Culligan Milano Swan 3-in-1 Boiling Water Tap delivers filtered boiling hot water on demand, as well as standard hot water and cold water for every day use.

A stylish, modern and reliable tap appliance designed to suit any residential space, as well as save counter space by no longer needing a kettle. No separate water supply is required; just simply install and enjoy refreshing, filtered water.

AVAILABLE OPTIONS & FINISHES:

BOILING, HOT & COLD

The system comes with an innovative Carbon Pure Water Filter, which organically absorbs and removes all unwanted chemicals

This robust and reliable design is built to save you time, energy and money.

With a child-safe spring lock for boiling water dispenser; safety is our priority.

Having piping hot, 98.9°C water available on demand is guaranteed to save you time each day.
