

The Core

Floor Standing Bottled Water Cooler

Offering a choice of ambient (room temperature) and chilled water, the Core water cooler is our most popular bottled water cooler, ideal for both home and workplace.

With its high-capacity tank, and fast dispense rate, it is the perfect machine for offices – serving up to 30 people comfortably. The slimline design and robust build quality means this machine looks good in any kitchen, reception area, or meeting space.

This water dispenser is suitable for all standard water bottles, including 11, 15, and 19 litre bottles.

Ambient & Chilled

The modern and robust design is suitable for any space and environment.

— This water cooler's highly efficient compressor makes the cold water crisp and ice cold.

— Spacious dispense area is large enough to fill glasses and bottles with ease.

— Large removable drip tray, which is dishwasher safe, to catch any spills.

The Core

Floor Standing Bottled Water Cooler

Robust Design

This water cooler looks stylish in silver, and is built with durable plastic that can withstand even the most demanding environments.

Cold water on tap

Instant access to chilled water, and room temperature water - perfect for cooling you off on a hot day. The highly efficient compressor makes the cold water crisp and ice cold.
