

Piccola

Countertop Mains-fed Water Cooler

The Piccola water dispenser guarantees to bring style to your kitchen worktop. Stylish yet discreet, this makes the perfect addition to any countertop in need of a compact refreshment solution. Due to its size, it is suitable for environments where countertop space is limited. Small but mighty, the Piccola provides an impressive 15 litres per hour.

Ambient & Chilled

Ambient, Chilled & Hot

Ambient, Chilled & Sparkling

The Hot version is equipped with an energy saving mode to reduce power consumption during periods of non-use.

Uses Direct Chill technology to chill the water efficiently and hygienically.

Modern LED buttons and an illuminated dispense area.

Spacious dispense area is large enough to fill glasses and bottles with ease.

Piccola

Countertop Mains-fed Water Cooler

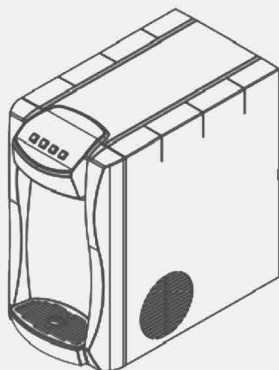

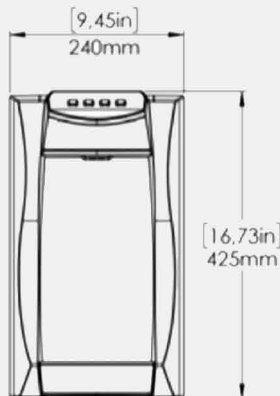

Blupura brand

Blupura is an innovative brand with groundbreaking products which are recognised worldwide. 100% designed and made in Italy.

Direct Chill

Direct Chill technology provides a consistent delivery of chilled water. It also has significant hygiene benefits as the water does not come into contact with air until it is dispensed.
